
About Slick Worldwide

One price up front, before you book.

A Sydney removals company. Local, country, interstate and international removals, with packing and storage, in and out of Australia. We are your removalists from booking to delivery.

01 Who we are

We quote, book and manage every move, and we answer for it from booking to delivery. The work is done by vetted subcontracted crews and partners we manage: removalists, drivers, carriers, storage facilities and licensed customs brokers.

We used to trade as Impact and Slick. Same business, new name. Chase your dreams is the line under our name, because a move is a new job, a new home or a new country.
